

Months

April 25, 2004

January's cold as sin
February's all snowed in
March is blustery, smug and chill
April's far too wet to till
May is warmer, full of blooms
June is full of brides and grooms
July brings heat and lots of fairs
August has parched and scalding airs
September walks school's vaunted halls
October sees every leaf's fall
November brings a kiss from death
December has an icy breath
